

## Employment opportunities with the SA Dental Service

As a dentist you will utilise your high level of clinical competence and provide general and emergency oral health care to eligible clients of the SA Dental Service. Assessing clients presenting with dental diseases and oral health problems and arranging referral to dental specialists for care outside the scope of a generalist dentist when required.

Working together in partnership with other team members to achieve common goals, and providing clinical guidance to members of the dental team which includes giving mentoring and advice to less experienced dental operators, and may also include opportunities to supervise and teach undergraduate students for dentists interested in this option.

Working for us, you will be able to experience real job satisfaction as you make a significant difference to the oral health eligible adults and children. You will have the opportunity to contribute to the development of public oral health planning and services, in addition to enjoying flexible working arrangements.

## Applying for the SA Dental Service Dentist Candidate Pool

The SA Dental Service is seeking Dentists to be part of our Dentist Candidate Pool to fill general dentist positions as they become available.

As vacancies can occur at any time it is useful to have a pool of candidates to directly approach with available positions who have been selected for employment through a merit based selection process. This is more efficient than having to conduct a separate advertising and selection process each time a vacancy occurs.

We encourage interested dentists to view the information

- Go to SA Health Careers site [www.sahealthcareers.com.au](http://www.sahealthcareers.com.au)
- Select the 'Search our Jobs' tab,
- Enter job number **733538** which will display the advert and information

Applications can be submitted via the online job application form via the  button and are **open from Friday 4 September 2020**

**Closing date Sunday 4 October 2020**

If you have any questions in relation to the roles or the online application process please contact Cathy Milowski , Manager Attraction and Retention, SA Dental Service
